**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chris Olson on 7/9/10.

The application has been amended as follows:

Cancel claims 108, 139-143, 145-147, and 149-158.

2. The following is an examiner's statement of reasons for allowance:

In view of applicant's remarks the examiner has reconsidered the 35 USC 112 first - enablement rejection and decided to withdraw the rejection. As applicant points out, the development of tetracycline antibiotic compounds has been well studied, including related derivatives such as applicant claims. Furthermore, the enabling disclosure teaches methods of how to make and test the compounds for the relevant activity in a manner that supports the claims. Because the remaining ground of rejection was withdrawn, the previously withdrawn claims are hereby rejoined and allowed. The closest prior art is that of Hlavka et al. (US RE40,183) which teaches a genus of compounds of the following formula:

Although part of the instant claim scope is encompassed by the Hlavka reference, such as in col. 141 where "n=0" in the definition of "R", one of ordinary skill in the art is not sufficiently taught by the prior art how to select the subgenus of the instant claims such that the instant claims are obvious over the prior art. Thus, the above "R" variable and "X" variables differ from the instant claims in a non-obvious manner.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROBERT HAVLIN whose telephone number is (571)272-9066. The examiner can normally be reached on Mon. - Fri., 7:30am-5pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joe McKane can be reached on (571) 272-0699. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
